

POST-MEET

Information actions for posting in the
construction sector

The POST-MEET project is a collaborative initiative aimed at improving access to essential information on transnational posting in the construction sector for workers and companies across 8 EU Member States.

It focuses on providing clear and comprehensive information on applicable conditions of employment and procedures, also regarding sectoral funds, through multilanguage guides, in-presence and online seminars, and by innovating communication tools project partners use with posted workers and their employers.

By empowering workers, enhancing transparency, and fostering collaboration among stakeholders, the project contributes to fair and transparent working conditions in the construction sector.

Funded by
the European Union

TARGET GROUP

- Posted Workers
- Construction companies (host and sending undertakings)
- Unionists
- Labour Consultants

RESULTS

- **Information tools:**

5 multi-language Guides to inform workers and companies on procedures and terms of employment in construction in case of posting to Bulgaria, Italy, Poland, Slovenia, and Spain, plus complementary information activities and tools addressing all covered countries.

- **Dissemination:**

10 online and 10 in-presence seminars to inform workers, companies, labour consultants, and unionists on country-specific provisions in case of posting in construction, plus a final report and 3 Dissemination Events to promote the project and its outputs to a wider audience.

- **Communication:**

Innovative communication tools to ease relationships that project's partners have with companies and posted workers, also by digitalising declarations to sectoral funds in case of posting.
